Pune, Maharashtra, India

Professional Summary

MCA graduate and Java backend developer with 6 months of professional experience building secure, modular REST APIs using Spring Boot, Spring Security, JWT, and Hibernate. Proven ability to deliver end-to-end web applications—from database design and role-based module implementation to API documentation with Swagger—while adhering to best practices in OOP, data validation, and error handling. AWS Cloud Practitioner certified and eager to expand into containerized deployments and CI/CD automation to contribute effectively to modern software engineering teams.

Technical Skills

Programming:	Java, C, C++, SQL
Core Java:	OOP, Data Structures, Collections, Exception Handling, Multithreading, Java 8, Stream API
Backend:	Spring Boot, Spring MVC, Spring Security, JWT, Hibernate, JPA, REST APIs, Java Servlets, JSP, JDBC
Databases:	MySQL, Oracle SQL
Frontend:	HTML, CSS, JavaScript
Tools:	Git, GitHub, Maven, Postman, Swagger/OpenAPI, Apache Tomcat, IntelliJ IDEA, VS Code
Soft Skills:	Problem Solving, Teamwork, Communication, Time Management, Adaptability
Languages:	English, Hindi, Marathi

Experience

Software Development Intern – GTL Software Pvt. Ltd. 01/2026 – 06/2026
InteriorHub – Online Interior Design Web Application *Pune, Maharashtra*

- Engineered a multi-module interior design web application with Java Servlets, JSP, JDBC, and MySQL, enabling customers to discover and engage vendors.
- Designed and implemented three role-based modules (customer, vendor, admin) handling registration, authentication, vendor approval, and category management.
- Implemented CRUD operations, image/video uploads, vendor search by category and city, customer enquiries, and ratings with MySQL integration.
- Added form validation and database error handling; used Git and GitHub for version control and debugging.

Projects

Digital Banking Portal | GitHub *Java – Spring Boot – Spring Security – JWT – MySQL*

- Developed a Spring Boot-based Digital Banking Portal with four modular REST APIs for customer onboarding, secure authentication, beneficiary handling, and transaction processing.
- Secured the application with Spring Security, JWT authentication, BCrypt password hashing, and role-based access control.
- Added input validation and exception handling to reject invalid transfer requests; tested APIs with Postman and documented them with Swagger/OpenAPI.

Java Study Tracker | GitHub *Core Java – OOP – Collections – File Handling*

- Built a console application to manage daily study activities using OOP, Collections, and data structures.
- Added CSV file handling, validation, and exception handling, with 2 progress reports (date-wise, subject-wise).

Generalised Data Structures Library *C++ – Templates*

- Implemented 3 generic data structures (linked list, stack, queue) using C++ templates.

Education

Master of Computer Applications (MCA) 2024 – 2026
Savitribai Phule Pune University *CGPA: 7.88*

Bachelor of Computer Applications (BCA) 2021 – 2024
Savitribai Phule Pune University *CGPA: 6.86*

Certifications

AWS Certified Cloud Practitioner (CLF-C02) | Amazon Web Services (AWS) | 2026
